Unit	ITNET312A Major Individual Project
Assessment Type	Report
Assessment Number	2
Assessment	Literature Review
Weighting	20%
Alignment with Unit and Course	**Unit Learning Outcomes** ULO 1: Apply project management skills and methods, develop and implement complex technology projects. ULO 2: Conduct effective project research and an extensive literature review.
Due Date/Time	Week 6 Via Moodle Turnitin 5:00 pm (AEST)
Assessment Description	This is an individual assessment **Content and Structure**: In this assessment, students are required to conduct and submit an extensive literature review to support the research and development of their major project. The literature review must demonstrate competence in accepted referencing and citing protocols.
Detailed Submission Requirements	Assessed by: Lecturer/Tutor Submission: in Moodle. Feedback: overall feedback for the individual in Moodle.

Misconduct

- The assessment will be submitted through Turnitin via your unit page on Moodle.
- Turnitin is plagiarism software, which will identify if you have copied information and included it in your assessment.
- Copying information from others (i.e. websites, partner company information, or other students, etc.) without acknowledging the author is classified as misconduct.
- Engaging someone else to write any part of your assessment for you outside of the group work arrangement is classified as misconduct.
- To avoid being charged with Misconduct, students need to submit their work and apply APA or Harvard Style Referencing *(ask your lecturer (https://courses.highered.tafensw.edu.au/mod/page/view.php?id=48) if you do not know what this means, or you need assistance applying it).*
- The TAFE misconduct policy and the procedure can be read on the TAFE website ((https://www.tafensw.edu.au/about/policies-procedures/higher-education).
- Use the TAFE **referencing guide** accessible on Moodle.

Late Submission

- Any assessment submitted past the specific due date and time will be classified as Late.
- Any Late submission will be subject to a reduction of the mark allocated for the assessment item by 5% per day (or part thereof) of the total marks available. A 'day' for this purpose is defined as any day of the week including weekends. Assignments submitted later than one (1) week after the due date will not be accepted unless special consideration is approved as per the formal process.

Special consideration

- Students whose ability to submit or attend an assessment item is affected by sickness, misadventure, or other circumstances beyond their control may be eligible for special consideration. No consideration is given when the condition or event is unrelated to the student's performance in a component of the assessment, or when it is considered not to be serious.
- Students applying for special consideration must submit the form within 3 days of the due date of the assessment item or exam.
- The form can be obtained from the TAFE website (https://courses.highered.tafensw.edu.au/mod/page/view.php?id=48) or on-campus P.4.32.
- The request form must be submitted to Admin Office. Supporting evidence should be attached. For further information please refer to the Student Assessment Policy and associated Procedure available on (https://www.tafensw.edu.au/about/policies-procedures/higher-education).

Academic Integrity

Generative AI / ChatGPT Use Type

Generative AI tools can produce diverse forms of content, spanning text generation, image synthesis, audio, and synthetic data. Some examples include ChatGPT, Copilot, Gemini, Claude, NovelAI, Jasper AI, DALL-E, Midjourney, Runway, Adobe Firefly, etc.

(Specify here and highlight one of the following AI Levels). For example,

The expected and permitted use of AI in the assessment is: Level 1.

If you have questions about appropriate use, you must check with your teacher or course coordinator before using AI in your assessment. **Inappropriate use of AI may lead to an academic misconduct report.**

Note that you are expected to fully understand and be able to discuss every aspect of your assessment.

Whatever level of AI use is permitted, if there is a concern about the use of AI tools exceeding the assessment guidelines, then you may be asked to discuss the assignment with the teacher before the mark is finalised.

LEVEL 1: NO AI	The entire assessment should be completed without the use of AI.
	AI must not be used at any point during the assessment, including for translation, editing, generating content or ideas
LEVEL 2: AI-ASSISTED EDITING	AI can be used as an editor to make improvements to the clarity or quality of your work. This includes:
	• Spelling and grammar checking and rewriting for style and conciseness
	• Feedback on language, grammar structure
	• Using AI for data cleaning

	• (add as appropriate for discipline?)
	You are accountable for the quality and appropriateness of the language and writing, as well as all other aspects of the assignment.
	AI can be used to improve your work, but it should not be used to generate new ideas, answers, or content (this is Level 3: AI Assisted Ideas).
LEVEL 3: AI-ASSISTED IDEAS	AI can be used in the assessment for brainstorming, creating structures, and generating ideas for improving work, including feedback on content and methods. You should clearly acknowledge how AI was used in preparing the assessment.
	AI can be used as a source of information. You are accountable for validating and verifying the accuracy and reliability of the information.
	Any AI-generated content should be cited as a source (i.e., quoted or sufficient paraphrased and source cited).
	You are required to declare the use of Generative AI like ChatGPT in the production of the assessment. For example, reports and presentations must include a ChatGPT / Gen AI Appendix at the end. **You are warned that the absence of the Appendix is equivalent to stating "I did NOT use ChatGPT / Generative AI" which if proven to be false, then constitutes a breach of Academic Integrity.** **DON'T BE SORRY, JUST DECLARE IT!**
	Students must clearly acknowledge within the ChatGPT / Gen AI Appendix any use of Generative AI tools through a statement which includes: the full name of the tool used (with version number), how it was used, the reason for use, and the prompts that you used.
LEVEL 4: AI-ASSISTED CREATION, HUMAN EVALUATION	AI is used to complete certain element of the task, and you will provide discussion or commentary on the AI-generated content. This assessment explicitly requires critical engagement with AI-generated content and the evaluation of its output.
	You will use AI to complete specified tasks in your assessment. Any **AI-generated** content must be cited. You are expected to fully understand and be able to discuss every aspect of the AI-generated content.

Rubric for Report (20marks)

Requirements	Total	High Distinction	Distinction	Credit Pass	Pass	Fail
			OFFICIAL			
Depth and Breadth of Coverage demonstration of the ability to find significant sources, familiarity with the existing body of knowledge, analysis of existing research, and learning through a careful reading of existing scholarship.	10%	Sources are exceptionally well-integrated and they support the claims arguedin the paper very effectively.	Sources are well integrated and support the paper's claims.	Sources support some claims made in the paper, but might not be integrated well within the paper's argument	The paper does not use adequate research or if it does, the sources are not integrated well.	The paper was copied from some resources.
		8.5 to 10	7.5 to 8.4	6.5 to 7.4	5 to 6.4	0 to 4.9
Critical Elements	5%	The written work shows great depth of thought, excellent development of argument, logical analysis, and insight into the subject.	The written work shows some evidence of analysis, supported by logical argument and insight into the subject.	The written work shows evidence of elementary analysis and the development of argument.	The written work is mainly descriptive, showing a basic understanding of the topic.	The written work demonstrates a limited understanding of the topic.
		4.3 to 5	3.8 to 4.2	3.3 to 3.7	2.5 to 3.2	0 to 2.4
Structure, Language, and Conventions	5%	All aspects of the written work conform to a high academic/professional standard.	Most aspects of the written work conform to a high academic/professional standard.	Most aspects of the written work conform to an acceptable academic/professional standard.	The written work displays a basic structure.	The written work is not of an academic/professional standard.
		4.3 to 5	3.8 to 4.2	3.3 to 3.7	2.5 to 3.2	0 to 2.4
