Unit	ITNET312A Major Individual Project
Assessment Type	Report - Individual
Assessment Number	3
Assessment Name	Practical Assessment Project Plan /Early-Stage Presentation
Weighting	20%
Alignment with Unit and Course	**Unit Learning Outcomes** ULO 1: Apply project management skills and methods, develop and implement complex technology projects. ULO 2: Conduct effective project research and an extensive literature review. ULO 3: Effectively manage time, workload, and stress.
Due Date/Time	Week 8 Online Moodle Submission; 5:00 pm (AEST)
Assessment Description	In this assessment, the student must develop a comprehensive project plan. The plan should describe the nature of the project and include details relating to expected costings, resource requirements, 'staffing' needs, timelines, implementation details, and how the project will be evaluated. The approximate length is 2,000 words. Assessed by: Lecturer/Tutor. Each student needs to present their projects to the class byusing a PowerPoint presentation. It will help students to understand their weaknesses in their presentation" Early stage" and make some changes before finishing their project and preparing for their final presentation at the end of the semester.
Detailed Submission Requirements	Online Moodle Submission via Turnitin. Feedback: overall feedback for the individual in Moodle.
Special consideration	Students whose ability to submit or attend an assessment item is affected by sickness, misadventure, or other circumstances beyond their control may be eligible for special consideration. No consideration is given when the condition or event is unrelated to the student's performance in a component of the assessment, or when it is considered. not to be serious.

Students applying for special consideration must submit the form within 3 days of the due date of the assessment item or exam.
The form can be obtained from the TAFE website (https://courses.highered.tafensw.edu.au/mod/page/view.php?id=48) or on-campus P.4.32.

The request form must be submitted to the Admin Office. Supporting evidence should be attached. For further information please refer to the Higher Education Assessment Policy and associated Procedure available at (https://www.tafensw.edu.au/about/policies-procedures/higher-education).

Academic Integrity

Generative AI / ChatGPT Use Type

Generative AI tools can produce diverse forms of content, spanning text generation, image synthesis, audio, and synthetic data. Some examples include ChatGPT, Copilot, Gemini, Claude, NovelAI, Jasper AI, DALL-E, Midjourney, Runway, Adobe Firefly, etc.

(Specify here and highlight one of the following AI Levels). For example,

The expected and permitted use of AI in the assessment is: Level 1.

If you have questions about appropriate use, you must check with your teacher or course coordinator before using AI in your assessment. **Inappropriate use of AI may lead to an academic misconduct report.**

Note that you are expected to fully understand and be able to discuss every aspect of your assessment.

Whatever level of AI use is permitted, if there is a concern about the use of AI tools exceeding the assessment guidelines, then you may be asked to discuss the assignment with the teacher before the mark is finalised.

LEVEL 1: NO AI	The entire assessment should be completed without the use of AI.
	AI must not be used at any point during the assessment, including for translation, editing, generating content or ideas
LEVEL 2: AI-ASSISTED EDITING	AI can be used as an editor to make improvements to the clarity or quality of your work. This includes:
	• Spelling and grammar checking and rewriting for style and conciseness
	• Feedback on language, grammar structure
	• Using AI for data cleaning
	• (add as appropriate for discipline?)
	You are accountable for the quality and appropriateness of the language and writing, as

	well as all other aspects of the assignment.
	AI can be used to improve your work, but it should not be used to generate new ideas, answers, or content (this is Level 3: AI Assisted Ideas).
LEVEL 3: AI-ASSISTED IDEAS	AI can be used in the assessment for brainstorming, creating structures, and generating ideas for improving work, including feedback on content and methods. You should clearly acknowledge how AI was used in preparing the assessment.
	AI can be used as a source of information. You are accountable for validating and verifying the accuracy and reliability of the information.
	Any AI-generated content should be cited as a source (i.e., quoted or sufficient paraphrased and source cited).
	You are required to declare the use of Generative AI like ChatGPT in the production of the assessment. For example, reports and presentations must include a ChatGPT / Gen AI Appendix at the end. **You are warned that the absence of the Appendix is equivalent to stating "I did NOT use ChatGPT / Generative AI" which if proven to be false, then constitutes a breach of Academic Integrity. DON'T BE SORRY, JUST DECLARE IT!**
	Students must clearly acknowledge within the ChatGPT / Gen AI Appendix any use of Generative AI tools through a statement which includes: the full name of the tool used (with version number), how it was used, the reason for use, and the prompts that you used.
LEVEL 4: AI-ASSISTED CREATION, HUMAN EVALUATION	AI is used to complete certain element of the task, and you will provide discussion or commentary on the AI-generated content. This assessment explicitly requires critical engagement with AI-generated content and the evaluation of its output.
	You will use AI to complete specified tasks in your assessment. Any **AI-generated** content must be cited. You are expected to fully understand and be able to discuss every aspect of the AI-generated content.
